

**KABA®**

# Peaks® *Classic* Patented Key Control System

The Industry Leader in Patented Key Control

# The Foundation of Facility Security

## Convenient to Manage Security.

From the transit system to the school system, no other lock cylinder offers the flexibility of Kaba Peaks *Classic*. Institutions of all sizes can benefit from the quality, extensive retrofitability, and convenience of a one key system. With Kaba Peaks *Classic* all your existing institutional locking hardware can be economically upgraded, including emergency exits, deadbolts, padlocks, doorknobs and levers, making it easy to improve your security.

- Economical, adaptable solution for the security needs of larger institutions
- Secure control over unauthorized key duplication
- Minimizes the need to rekey locks when employees, students, consultants or others relocate
- Cost effective - replace only the cylinder, not the hardware

## More Flexibility, Better Security.

Have expansion and the hectic speed of business outpaced your physical security configurations, causing employees and tenants to copy their own keys?

Kaba Peaks *Classic* lets you convert your entire property, or just certain doors, to a restricted key system with unique security features. With Kaba Peaks *Classic*, you retain your commercial lock hardware including mortise and doorknob locks, aluminum and glass door locks, and main entrance locks, while improving your work environment security.

- Authorization required to order cut keys, key blanks, and key cylinders.
- Increases the security of your premises.
- Can be master keyed to provide convenience and security.
- Eliminates need to rekey locks when tenants or employees leave.
- Patented design prevents unauthorized key duplication.

## The most adaptable Patented Key Control System.

Kaba Peaks *Classic* is designed to retrofit nearly every type of commercial hardware in use today - and the future. No matter what hardware is used at your facility, you can use one Kaba Peaks *Classic* key to operate all your locks.

Retrofit cylinders include conventional mortise, rim, dead-bolt, padlock, key in knob/lever, as well as interchangeable core and removable core designs.

Kaba Peaks *Classic* is the industry leader in compatibility with all major hardware brands.
